

Lou Morales Praise Report

Our apologies, but Lulu and I will be unable to attend next Thursdays “Alive in Christ” service. I hope that you can read my Praise Report of the healing of my back to the audience. “According to Luke 17 : 11-19, Only one of the ten lepers returned to Jesus to acknowledge his healing by throwing himself at Jesus’ feet and praising God. I am most grateful to our Lord for healing my back during the “Alive in Christ” healing service and would like to take this opportunity to submit a written praise report.

I had suffered from sciatic pain since hurting my back in the Army in 1986. I had seen countless doctors, Orthopedic Surgeons, Neurologists, etc., who could provide no definitive cause for the pain. The pain and discomfort were so constant that I resolved myself to living with it and though I have attended other healing services, I never thought of having my back prayed over. Well, this particular evening my back was hurting so much that I could hardly sit. So when John Cojanis mentioned that we would pray for those who were experiencing back pain, I raised my hand. My wife, Lulu, and Gail Phelps, who was sitting behind me, laid hands on me and prayed. But I

remembered the constant pain and reminded myself it was here to stay, so it did. I went on as usual, ignoring the pain, and decided it was better to pray for others who were suffering much worse than I. After the service was over, we walked out to our small car, and as I slid behind the wheel I noticed the absence of back pain. Praise God!!! The pain has tried to come back several times since but I have taken John's advice about rebuking the pain. I just want to keep praising our Lord for his infinite mercy!!”
