

Hello Noel and Gloria.

I like to introduce myself, I'm Manny Padilla, and I'm friends with Dora Lopez. She gave me both of your e-mail contact information so I hope you do not mind. Not to confuse the issue, but Dora knows me through my family where I'm known by my middle name, which is "Santos." Either name is good with me.

The reason I'm sending this e-mail is that my sister, her husband and I attended one of the prayer group meetings held (Nov. 2015) at the Sacred Heart Church located on Fort Lowell Road. We prayed for among other things for my Dad's health to improve. My Dad is 90 years young.

Noel, I understand you were present at this prayer group. As you witnessed, we were fortunate to have Father Liam Leahy pray with us. Thanks to God and to all that prayed that night for God's healing, the very next day there was a notable improvement in my Dad's eye infection. We like to Thank God for his mercy in healing my Dad's eye infection. I understand we can share this with the group at tonight's prayer group. Dora explained that you would like an electronic copy of the photos so they can be part of the power point? I have attached two photos (2 e-mails as you requested), of my Dad's face. The first photo shows my Dad's eye infection in full gloom as it looked the night of the prayer group date and the second photo was taken the following morning after the prayer group session. I have a final photo of his face of how he looks now, but I don't have a way of downloading it onto the computer, so that one I can share through my phone tonight.

Thank you for your help and interest in my Dad's healing.

Have a good day.

Manny
